Profile

I am an aspiring Full-Stack web developer currently studying with Trilogy Education through the University of Sydney. I have a passion for all things web development, but particularly love designing the Front-End.

Projects

ReaCharity – 2021

This was my first project completed with a group effort. The website is designed to allow for users to easily search through all Australian charities.

Languages: HTML5 - CSS - Javascript

Frameworks: Bootstrap - JQuery

Link: <https://samuelheal.github.io/ReaCharity/>

Github: <https://github.com/SamuelHeal/ReaCharity>

Weather Dashboard – 2021

The site is designed to allow users to search for the weather in any city across the globe.

Languages: HTML5 - CSS - Javascript

Frameworks: Bootstrap - JQuery

Link: <https://samuelheal.github.io/Weather-Dashboard/>

Github: <https://github.com/SamuelHeal/Weather-Dashboard>

Work Day Scheduler – 2021

This is a website that is designed to allow for a user to plan their work day with ease.

Languages: HTML5 - CSS - Javascript

Frameworks: JQuery

Link: <https://samuelheal.github.io/Work-Day-Scheduler/>

Github: <https://github.com/SamuelHeal/Work-Day-Scheduler>

Education

Coding Boot Camp - Trilogy Education - 2021

Skills

Languages: HTML5 - CSS - Javascript - Python3

Frameworks: Bootstrap - JQuery

Other Skills: API Manipulation
