Profile

I am an aspiring Full-Stack web developer currently studying with Trilogy Education through the University of Sydney. I have a passion for all things web development, but particularly love designing the Front-End.

Projects

Gym Club – 2021

A project completed with the collaborative efforts of a four person team, Gym Club is a social media platform for all those who gym. It allows users to sign-up, login, post blogs, have their own unique user profile and add custom workouts.

Languages: HTML5 - CSS - Javascript - mySQL
Libraries: JQuery - Anime.js - Node.js - Sequalize - Express.js - Bcrypt - Handlebars.js
